IVO FUNDS – IVO FIXED INCOME SHORT DURATION SRI Sub-fund

ISIN Share Class EUR-Z (cap): LU2061940222
This UCITS is managed by IVO CAPITAL PARTNERS

Investment objectives and policy

Investment objective: The investment objective of IVO FUNDS - IVO FIXED INCOME SHORT DURATION SRI (the "Sub-Fund") is to generate income and capital growth over the long term by investing primarily in sovereign or corporate bonds, as more fully described in the following paragraph.

Investment policy : To achieve its objectives, the Management Company will mainly purchase fixed and/or variable rate corporate and government bonds, if necessary secured by adjacent assets, denominated in US dollars, euros or other hard currencies whose issuers are registered or carry on their main business in emerging markets (Asia, Africa, Latin America and certain part of Europe) and this without rating constraints. To a lesser extent, the Sub-Fund may also invest in European and North American companies exposed to emerging markets.

With respect to investments in debt instruments (as mentioned above) without rating constraints, the Sub-Fund may invest up to : (i) 30-100% in "speculative (high yield) security" quality bonds, i.e. those rated below BBB- by Standard & Poor's or equivalent ratings below BBB- by any other rating agency or unrated bonds ; (ii) 0-10% in distressed securities, which may increase the credit risk of the Sub-Fund.

The Sub-Fund's investments will be well diversified across a wide range of issuers and sectors. The maximum average duration of the Sub-Fund will be 3 years.

In addition, the Sub-Fund may invest up to 10% in equities from any geographical area (including emerging countries).

The Sub-Fund's investments in bonds are subject to the following limits: the Sub-Fund may not invest more than 30% of its assets in: (i) securities convertible into equity shares (ii) equity securities (including warrants) and (iii) certificates of deposit.

The Management Company applies its sustainable investment policy, which takes in to account ESG criteria in the Sub-Fund's investments. This policy makes it possible to assess the risks to performance associated to ESG risks, with the aim of minimizing these risks. The exclusion of companies exposed to these controversial sectors depends on (i) the degree of exposure of the companies to these sectors and/or (ii) whether or not these companies apply a "Corporate Social Responsibility" (CSR) policy that addresses the specific risks to their sector. Furthermore, the Sub-Fund will not invest in bonds whose issuers present the weakest ESG criteria among the weakest ESG criteria among issuers of the same sector of activity, based on the ESG based on ESG ratings provided by an external research provider.

The Management Company ensures that, at any time, the investment universe of the Sub-Fund is reduced by at least 20%, based on the above-mentioned sectoral exclusion policy or, for issuers belonging to non-excluded sectors, on the basis of ESG ratings.

The Sub-Fund may not invest more than 10% of the bond portfolio on a sustainable basis in securities that have not been not been subject to a specific internal analysis of ESG criteria.

The Sub-fund is a financial product promoting environmental or social characteristics as defined by the article 8 of the SFDR.

In addition, the Sub-Fund reserves the right to invest up to 10% of its assets in securities of other French and/or European UCITS, in accordance with e) Article 41 of the 2010 Law. These are UCIs of any AMF classification, which may or may not belong to the management company.

The use of financial derivative instruments is part of the Sub-fund's investment policy. The Sub-fund may use techniques and financial derivative instruments as a way of gaining exposure, in order to efficiently manage the portfolio or as a mean of hedging.

The Sub-fund may also invest in term deposits, complying with investment limitations and rules described below.

The Sub-fund may also be exposed to equity risk through investments in convertible bonds. The Sub-Fund is actively managed, but without reference to any benchmark.

The underlying investments may be denominated in euros, dollars or any other hard currency. Also, there is no constraint regarding minimal rating or duration of the securities.

The Net Asset Value of the Sub-fund is denominated in euros.

The net income of the EUR-Z Class (cap) is fully capitalized.

The recommended investment horizon is 3 years.

Subscription and redemption requests are centralized on each working day before 12am CET corresponding to the Valuation Day (D) and executed on the basis of the net asset value calculated on the basis of the last known closing prices of these securities on the Valuation Day (D). Net asset value is calculated on a daily basis, except on bank holidays in Luxembourg, even if the reference stock markets are open.

Risk and return profile

Explanation of the indicator and its main limitations:

Historical data used to calculate the synthetic indicator cannot be taken as a reliable guide to the Sub-fund's future risk profile.

The risk category assigned to this Sub-fund is not guaranteed and may change over time.

Category 1 does not indicate a risk-free investment.

The capital of your investment is not guaranteed.

The Sub-fund belongs to Category 4 because of the nature of its investments, whose associated risks are explained below.

These factors may have an impact on the value of the Sub-fund's investments or may cause the Sub-fund to experience losses. The risk level

of this Sub-fund is linked to its exposure to interest rates markets.

Other influencing factors are political and economic news, companies' profitability and significant corporate events affecting those companies.

Important risks that are not taken into account in the indicator:

The occurrence of one of these risks may especially have a significant impact on the UCITS' net asset value.

Risk linked to the use of unrated or speculative securities (« high yield »):

The use of these securities, namely those whose credit rating is low or does not exist, may imply a more important risk of a decrease in the net asset value of the fund.

Credit risk: The Sub-fund invests in securities whose credit quality may decrease, therefore there is a risk that the issuer may not honor its obligations. In the event of a deterioration of the issuer's credit quality, the value of its bonds may decline.

Counterparty risk: The insolvency of any structure providing services such as assets safekeeping or acting as a counterparty to derivative instruments or other instruments may expose the Sub-fund to financial losses.
